200-word description

Positronic is a global manufacturer of high reliability electronic connectors and build-to-print cable assemblies for use in various applications related to military, space, commercial aerospace, medical, industrial, test, and rail among others. Core capabilities include solid machined contacts with low resistance/high conductivity for use in standard and quick-turn custom connectors. Key products include high power, D-sub, rectangular, modular and circular connectors. Many parts are offered off-the-shelf for immediate shipment using the company's e-commerce partner, PosiShop.com. Features include options for mixed density, blind mating, optical, waterproof (IP67), hermetic, thermocouple, spaceflight, mil-spec, solder/wire/press-fit terminations and various accessories. Connector types include options for free cable, PCB mount and panel mount.

Select products comply with or meet one or more of the following industry certifications or standards: MIL-DTL-24308 (M24308), MIL-C-39029 (M39029), MIL-PRF-28748 (M28748), GFSC S-311, IEC 60807, IP65, IP67, PICMG 2.11, PICMG 3.8, CompactPCI, AdvancedTCA, MicroTCA, VITA 41, ARINC 801, RoHS, REACH, ITAR, UL, CUL, CSA, TUV, ISO9001, and AS9100 among others.

Although a large catalog of standard products exists, customized solutions are available as well. In fact, Positronic is known globally for the unique ability to quickly modify existing or create new products to meet application-specific needs. Visit www.connectpositronic.com for more details.
