## Positronic Appoints Wesco Aircraft as an Authorized Distributor

**26 March 2018**

Positronic, a global manufacturer of high reliability electronic connector products based in Springfield, MO, USA, has appointed Wesco Aircraft as an authorized distributor for the full line of Positronic products in North America. “We are thrilled to announce this collaborative relationship with one of the aerospace industry’s leading distributors and providers of supply chain management services,” states Positronic Inside Sales Director, Anita Warner. “Wesco’s comprehensive range of services will serve our customer base well,” she added.

According to Michael Kennedy, Vice President, Strategic Supply Chain – Chemicals and Electronics, Wesco Aircraft, “We are pleased to add Positronic to our focused line card representing top manufacturers of high-performance electronic components. Many of its popular interconnect products, such as D-sub; power and hybrid; and other rectangular connectors, will be available in a centrally located Wesco Aircraft warehouse to meet our customers’ needs.”

Wesco Aircraft’s Center of Excellence for Electronic Products, based in Wichita, KS, USA, handles warehousing, quality management and value-added assemblies, and provides specialized services dedicated to delivering highly reliable interconnect and electro-mechanical products.

### About Positronic:

Founded in 1966, Positronic is a global manufacturer of highly reliable electronic connectors known for distinctive core capabilities, including solid machined contacts with low resistance/high conductivity for use in standard and quick-turn custom connectors. Key products include high power, D-sub, rectangular, modular and circular connectors. Customized solutions are available as well. Positronic is known globally for the unique ability to quickly modify existing designs or create new products to meet application-specific needs.
