**Positronic President Named Manufacturing Executive of the Year
at the 5th Annual Made in Missouri Leadership Awards**

7 November 2019

Positronic, a global manufacturer of high reliability electronic connector products based in Springfield, Missouri, USA, is pleased to announce Greg Rocque, President of Positronic, was named Manufacturing Executive of the Year by the Missouri Association of Manufacturers (MAM) at the 5th Annual Made in Missouri Leadership Awards & Appreciation Event.

Mr. Rocque was recognized for his effective leadership, execution of strategy, and measurable results for Positronic. His results-driven leadership has allowed Positronic to meet significant financial objectives in the past year, he has inspired the company to implement Lean manufacturing in order to remove “waste” and improve productivity, and he has driven operational efficiencies in cost savings and supplier relationships.

John Gentry, CEO of Positronic shared, “While Greg was humbled to receive this award, it is not surprising when you consider his experience in leadership and the encouragement he gives our employees across the organization to achieve strategic goals, which result in business growth.”

The Made in Missouri Leadership Award for Manufacturing Executive of the Year was based on measurable results, execution of the business strategy, effective leadership, business metrics, culture, teamwork and competitiveness in the marketplace. The award was developed to honor individual leaders that are shaping the future of manufacturing.

About Positronic:

Founded in 1966, Positronic is a global manufacturer of high reliability electronic connectors known for distinctive core capabilities, including solid machined contacts with low resistance/high conductivity for use in standard and quick--turn custom connectors. Key products include high power, D-sub, rectangular, modular and circular connectors. Customized solutions are available as well. Positronic is known globally for the unique ability to quickly modify existing designs or create new products to meet application-specific needs.
