Positronic Becomes Part of Amphenol Corporation

1 February 2021

Positronic, a global manufacturer of high reliability electronic connector products based in Springfield, Missouri, USA, announced today, the company has been acquired by Amphenol Corporation. This acquisition brings together industry-leading knowledge and experience in the market and provides customers with a broad range of products and technical design support for their interconnect solutions.

“Positronic is a strong fit with Amphenol, aligning well with its technological expertise, manufacturing versatility, and customer support,” states David Kean, recently named General Manager for Positronic. “As part of Amphenol, Positronic will continue to provide the connector products and services our customers demand.”

Positronic products complement the Amphenol offering, and the acquisition will allow customers to take advantage of a broad D-sub military / aerospace connector portfolio and have access to new, innovative technologies in the future.

Prior to the acquisition, Positronic was a privately held company, founded in 1966. Over its 50 plus year history, Positronic has expanded globally with a broad range of power, D-sub, rectangular and circular connector products. The company has locations in the United States, France, Singapore, Indonesia, India, and China. Additional information can be found at www.connectpositronic.com.

About Amphenol Corporation:

Amphenol Corporation is one of the world’s largest designers, manufacturers and marketers of electrical, electronic and fiber optic connectors and interconnect systems, antennas, sensors and sensor-based products and coaxial and high-speed specialty cable. Amphenol designs, manufactures and assembles its products at facilities in the Americas, Europe, Asia, Australia and Africa and sells its products through its own global sales force, independent representatives and a global network of electronics distributors. Amphenol has a diversified presence as a leader in high-growth areas of the interconnect market including: Automotive, Broadband Communications, Commercial Aerospace, Industrial, Information Technology and Data Communications, Military, Mobile Devices and Mobile Networks. About Positronic:

Founded in 1966, Positronic is a global manufacturer of high reliability electronic connectors known for distinctive core capabilities, including solid machined contacts with low resistance/high conductivity for use in standard and quick--turn custom connectors. Key products include high power, D-sub, rectangular, modular and circular connectors. Customized solutions are available as well. Positronic is known globally for the unique ability to quickly modify existing designs or create new products to meet application-specific needs.
