**Positronic Expands Partnership with Wesco Aircraft in Asia Pacific**

**25 February 2020**

Positronic, a global manufacturer of high reliability electronic connector products based in Springfield, Missouri, USA, is pleased to announce that Wesco Aircraft, one of its Authorized Distributors in North America, has expanded its distribution agreement to include designated countries in Asia Pacific. This geographical expansion provides customers in the Asia Pacific region with additional resources for sourcing Positronic products.

“Wesco is a trusted source for reliable interconnect and electro-mechanical products in the commercial aviation market,” states Jay Sandidge, Director of Asia Pacific Sales for Positronic. “Wesco’s Shanghai, China, and Singapore locations offer our customers local support for products and services.”

Wesco has been an Authorized Positronic Distributor since 2018, initially for North America, and the expanded territory in Asia Pacific includes: China, Hong Kong, Taiwan, Vietnam, Malaysia, Philippines, Thailand, Singapore, Indonesia, Australia and New Zealand.

Wesco Aircraft, which is headquartered in Valencia, California, USA, recently merged with U.K.-based Pattonair to form the world's largest independent provider of comprehensive supply chain management services to the global aerospace industry.

To learn more about Positronic products available from Wesco Aircraft, visit [www.wescoair.com](http://www.wescoair.com).

**About Positronic:**

Founded in 1966, Positronic is a global manufacturer of high reliability electronic connectors known for distinctive core capabilities, including solid machined contacts with low resistance/high conductivity for use in standard and quick--turn custom connectors. Key products include high power, D-sub, rectangular, modular and circular connectors. Customized solutions are available as well. Positronic is known globally for the unique ability to quickly modify existing designs or create new products to meet application-specific needs.
